[From the Washington Globe.] DEMOCRACY.

It is not my purpose here to discuss the etvmology, and strict original signification, of this important word. The thing, not the name, is generous enthusiasm, and uncalculating devothe question. Lemploy the term in its widest sense, as now generally understood to denote a popular government, contradistinguished from monarchy, aristocracy, and any and every other form which does not recognize, or rather, is not based upon, the sovereignity of the people.-This defination includes the American system of pelicy, which, in that sense, is, to all intents and purposes, a democracy. I know it is cus- tagion of the example; that association has tomary to speak of it, and justly, too, as a representative republic, with a territorial, as well as evil. We are so constituted, as necessarily to popular delegation; differing in these from a sympathise with each others sentiments, and to ers, that live on syllables." I repeat it, that I illustrated in the cases of husband and wife, of apply the term democracy to our form and friend and friend, and of all, indeed who dwell frame of government, in the sense generally understood and recognized; and that is sufficient ly pleasing allusion, it is nevertheless true with for my purpose. In the lapse of time, through popular usage, and in common parlance, words us of feeling, and the forms of opinion. Let But enough of words.

The successful effort to construct a government upon so grand a scale, and over so wide a surface, of the democratic element exclusively, without a regal capital, and aristocratical pillars, is perhaps the greatest achievement of modern times. It is so much grander than mere physical conquests and material attain- Sir, short as has been my life, I have yet seen many-headed monster, of volatile feelings, dismere physical conquests and material attainmens, as mind is superior to matter, the informing soul more elevated than the instrumenrepublican institutions, as well as their tendenchanging behests. From the Easte n Argus.

The following intelligence will be read with deasure by EVERY DEMOCRAT. The victory in the city of Baltimore, where the federalists were sanguine of turning the pressure to political account, is GLORIOUS!-but the GAIN OF A MEMBER OF CONGRESS in the third est strength, and not-(as the federalists did in Hancock and Washington) - through the division of their opponents! The inference is irresistable, that where local questions do not interfere, there is no domination of the strength or activity of the democracy-nor any error of opinion in relation to the true causes of the distress which the federalists so recklessly charge to the measures of the administration. We bail this cheering "SIGN" in Maryland, as the precursor of other victories - as the band-writing on the wall that tells of the continued prostration of federalism at the feet of the champions of the people's rights. THREE TIMES THREE FOR MARYLAND.

We feel peculiar pride at the commoned success of democracy in the "Virgin City," as Baltimore is called at the south—in the only great city that has been uniformly democraticthe only city on the Atlantic coast into which the enemy, either in the last war or the war of the revolution, did not get their foot-the city that during the last war, when Boston and the northern federal cities were for treating for peace, fought the enemy off, and killed the famous Gen. Ross - and the city which has at the head of its Municipal government the veteran democrat and patriot, GEN. SAMUEL SMITH, a hero of the Revolution.

The example of the democracy of Maryland will not be thrown away on Alaine-we shall rally here with the same fidolity and enthusiasm, and with the same success. Hancock and Washington will wipe off the stain which rests upon them and the whole state, with one accord, will respond to this noble victory.

The storm was loud-before the blast Our gallant bark was driven; Their foaming crests the billows reared, And not one friendly star appeared Through all the yault of heaven.

Yet dauntless still the steersman stood, And gazed without a sigh; Where, poised on needle bright and slim, And lighted by a lantern dim, The compass meets his eye.

Thence taught his darksome course to steer, He breathed no wish for day; But braved the whirlwind's headlong might, Nor once throughout the dismal night To fear or doubt gave way.

And what is oft the Christian's life But storm as dark and drear, Through which, without one blithsome ray Of worldly bliss to chear his way, He must his yessel steer?

Yet let him ne'er to sorrow yield. For in the sacred page A compass shines, divinely true; And self-illumed, greets his view Amid the tempest's rage.

Then firmly let him grasp the helm Though loud the billows roar; And soon, his toils and troubles past, His anchor he shall safely cast On Canaan's happy shore!

IMPORTANCE OF DESTROYING WEEDS .- The abundance in which weeds are seen in some fields, shows conclusively that but little of the mischief caused by them is understood. Weeds are injurious to the land and to the crop in almost every possible way that they can be. In the first place, they exhaust the soil to support their own useless growth, and abstract that wool manufactured at the halves.—Sattinett Warp formished for 2 cents per variety. nourishment from it, which ought to go exclu-sively to support the crop. Secondly, they crowd upon all other plants above ground, prevent them from branching out at their roots, and deprive them of a free circulation of air necessary for their health and vigor, so that they shoot up only singly, weak, sickly stalks, incapable of producing a valuable crop. Thirdly, they throw of from the soil through their leaves into the root of the widow's dower into the root of the root of the root of the widow's dower in the root of the root of the root of the root of the widow's dower into the root of the root of the root of the widow's dower in the root of the root of the root of the widow's dower in the root of the root of the root of the widow's dower in the root of the root of the root of the widow's dower in the root of the root of the root of the widow's dower of the root of th dry a state, as to be fit for weeds only to grow ges Sumner, June 27, 1837. Mr. Thompson, Sir—I have not forgot my promise I made to you when I bought the Truss, that if it did effect a cure i would send you a certificate. Now sir, I have the satisfaction in being able to send you a statement. In the month of March my Hernia became so had I was unable to labor. Feeling some alarmed about my situation, I went up to Keene to see if Dr. Twitchel could do my thing to help me. On making my case known to him, he advised me to go to Brattleboro and get one of Thompson's Trusses—said it was the best he knew of, and thought I should receive unmediate relief by wearing it. I made the application in March, and wore the Truss about eight weeks. On examining, I was satisfied that I was cured; but the Truss being easy to wear, I kept it on about four weeks songer, and then took it off and have had no occasion to wear it lince. Respectfully yours,

IR—On the principle inculcated by the great and good Dr.

Franklin, to diffuse as widely as possible every mean is our power to mitigate or soften the afflictions of suffering humanity, I feel it incumbent upon me to make known through the medium of your useful paper, that on reading therein an advertisement of Dr. Jebb's Liminent, for the cure of Rheumatism, I was foreibly impressed with a belief that it was calculated to remove the severe Rheumatic Affection to which I had been for seven or eight years subjected, sometimes almost depriving me of the use of my limbs. I accordingly procured a Bottle, and before I had used the whole of it, found very sensible relief. This increased my confidence in it, and led me to obrelief. This increased my confidence in it, and led me to ob-tain another bottle, the use of which has completely removed the swellings and pains of my limbs, together with the crump, and restored them to their wanted vigor.
